The Imprisoned Miners

No Hope That Any of the Men
Are Alive.

ANXIETY HOURLY INCREASING.

A Rescuing Party Enters the Mahoning
Mine and Are Cutting Through the
Wall to Where the Victims Are Sup-
posed to Be.

PITTSBURG, June 18.—A special to
The Times from Dunbar, Pa., says:
Mine Inspectors Block, of the Pittsburg
district, and Evans, of Johnstown, ar-
rived here early yesterday morning.
They went direct to the scene of the
horror, where they were joined by In-
spector Keighly of this district. The
three, accompanied by several mine
superintendents, fire bosses and a num-
ber of experienced miners from various
parts of the region, went into the
Mahoning mines with a view to cutting
through to the scene of the explosion.

Every man was carefully examined
by the official inspectors before they
were allowed to join the party. No one
who had touched intoxicants the night
before was allowed to enter the mine.
No married men were accepted, and
all went prepared to meet death. It is a
desperate case and desperate methods
are being employed to get at the en-
tombment of the miners in the quickest possible way.

The talent and skill of the entire
region is now directing its efforts at the
rescue, and together are managing to
the minutest detail the work of pen-
etrating the burning pit from the nearest
point. On the Mahoning mines, by arrang-
ing to drive the fire from its present seat
by a huge fan now being erected at the
mouth of the Ferguson works. The men
in the Mahoning works are about seven-
ty-five feet from what is considered the
shortest wall into the ill-fated mine.
The inspectors have no hope of finding
the unfortunates alive.

The victims may be reached not later
than noon. A feeling of horror possess-
es the people here, and all interest is
now centered at the mouth of the
Mahoning mines. The relatives and
friends of the entombed miners seemed
to grow more anxious every hour dur-
ing the day, and with their increased
burdens came abandonment of hope and
a more desperate grief. There is no
sleep and no rest for them. They seem
bound to the pit's mouth by some invis-
ible power, and in their misery they
stare, sadly subdued and mute in their
horror and pain, swaying in constant
harmony with their pitiable surroundings.
They will remain there until the
Hill farm mines gives up its untimely
dead.

Coroner Hobart, of this county, em-
paneled a jury and examined the bodies
of Daniel Sheran and David Hayes, two
victims taken out Monday, and will re-
turn here when he learns of the other
bodies being taken out.

A Mountain Peak Disappears.

NEW YORK, June 17.—The Tribune's
special from Redding, Cal., says that
one of the peaks of Mount Shasta has
disappeared. The top appears to have
been cut short off and to have fallen
into the crater below, the depths of
which have never been penetrated by
the eye of man. It is thought that the
absence of this old landmark may indi-
cate further demonstrations of a vol-
canic nature. Fire has long been
known to exist in the crater, and the
lava formations of the valleys and
ridges below it give rise to the question,
may not the convulsion of ages past be
repeated? An attempt will be made as
soon as possible to explore the mountain.

No More Prize Fights in California.

SACRAMENTO, Cal., June 18.—In a let-
ter to Attorney General Johnson, Gov-
ernor Waterman calls attention to the
frequent recurrence of prize fights with-
in the state limits. He declares that the
state has been disgraced by organiza-
tions given up to the degrading and dis-
gusting exhibitions of brute force in al-
leged scientific contests and which are
nothing more or less than prize fights.
These exhibitions, he says, should be no
longer permitted, and concludes by re-
questing the attorney general to inquire
into the matter, and to take such mea-
sures as will prevent any more of these
degrading exhibitions.

Miss Jones' Marriage Unhappy.

CHATTANOOGA, Tenn., June 18.—Miss
Annie Jones, daughter of Rev. Sam.
Jones, the noted evangelist, ran away
last Christmas with Professor William
Graham. They were married in Chat-
tanooga. A great deal of gossip was
occasioned at the time, as the elopement
was very sensational. The happy mar-
riage has been repented and the couple
separated. It is reported that Professor
Graham intends to sue for a divorce.

A Million Dollar Building.

SAN FRANCISCO, June 18.—The new
Chronicle building at Kearney and Geary
streets, one of the most complete
structures on the Pacific coast, was
thrown open for public inspection last
night. The building has been under
construction for over a year and its
builder, M. H. DeYoung, proprietor of
The Chronicle, has spent about \$1,000,-
000 upon it.

A Sentenced Prisoner's Brutal Act.

TIFFIN, O., June 18.—A brutal affair
occurred at the county jail here yester-
day. "Butch" Huffman, recently sen-
tenced to the penitentiary for nine
years, set fire to the bed clothing of a
female prisoner in the cell above. The
woman was severely burned.

Alabama's Speaker Dead.

MONTGOMERY, Ala., June 18.—Hon. C.
C. Shorter, of Eufaula, speaker of the
Alabama house of representatives, died
Monday. He was a young man of bril-
liant attainments.

DON'T WANT YANKEE PORK.

Its Importation Prohibited by Several
European Countries.

WASHINGTON, June 18.—The house
adopted a resolution some time ago call-
ing for certain information in regard to
the importation into foreign countries
of breadstuffs and provisions from the
United States. This information
has been furnished by the state depart-
ment in a document transmitted by the
president containing 629 pages of con-
sular reports and correspondence chiefly
devoted to the subject of pork and
canned meats.

Tabular statements are also given of
our trade in cereals and provisions with
Austria-Hungary, Belgium, France,
Germany, Spain, Switzerland, Sweden,
the Argentine Republic, Brazil, the
Dominion of Canada and Mexico. From
the foot-notes of these statements it ap-
pears that:

The importation of American pork
and lard into Austria-Hungary has been
prohibited since March 10, 1881, and the
sale of American canned meats was pro-
hibited in Hungary in 1884.

The importation of American pork
into France has been prohibited since
Feb. 18, 1881, and all lard imported
from the United States is now subjected
to inspection.

The importation of American pork
into Germany has been prohibited since
June 25, 1880, and American potatoes
have been prohibited since 1875.

The importation of American pork
into Italy has been prohibited since Feb.
20, 1879.

The importation of American potatoes
into Spain is prohibited, and American
pork and lard subjected to government
inspection.

The importation of American cattle
and swine, save in bond, into Ontario
was prohibited April 23, 1880.

The importation of American pork
into the Ottoman dominions has been
prohibited since 1881.

A Mayor Assaulted.

JACKSONVILLE, Fla., June 1.—Mayor
P. McQuaid, of Jacksonville, was as-
saulted and beaten with a billy yester-
day by City Marshall Wiggins, who is
under investigation on charges of offi-
cial misconduct. Wiggins is supposed
to have held the mayor responsible for
the proceedings against him. The as-
sault was made without warning, and
the mayor had no chance to defend him-
self. His injuries will probably not
prove fatal. Wiggins rode into the
country after the assault and is believed
to have boarded a train at a way sta-
tion and gone to south Florida.

Will Die or Be an Idiot.

PITTSFIELD, Mass., June 18.—Samuel
Newell, a large stockowner of this
town, attempted suicide yesterday by
hanging himself. He was unconscious
when cut down and physicians say he
will either die or become an idiot. Mel-
ancholy is the cause of the attempted
self-destruction. He is a brother of
John Newell, president of the Nickel-
Plate road, and is an uncle of Miss
Newell, who is fiancée of one of the Gar-
field boys.

A Business Woman.

COLUMBUS, Ind., June 18.—Fannie Wil-
liams, the female railroad contractor,
Monday completed ten miles of grad-
ing on the E. & R. road of the Mackey
system, in this county, and yesterday
shipped three carloads of horses and
grading machinery to Wellington, O.,
where she has another contract of twen-
ty-five miles of grading for the Cleve-
land and Wellington Railroad company.

Adrift in the Air.

ATLANTA, Ga., June 18.—A balloon
has been drifting about in this vicinity
since Saturday. Some memoranda
which fell from it and were picked up
state that it is Professor Walker's bal-
loon, from Dayton, O. The occupants
had lost their ballast and were adrift,
suffering from cold.

A Wedding With a Victim.

RISEING SUN, Ind., June 18.—Phillip
Cayton and Lizzie Hillis were married
at the residence of John Taylor, near
Big Bone Springs, Boone county, Ky.,
yesterday. Young Collins claims to be
victimized by his rival and faithless in-
tended for \$300 in clean cash.

A Youth Drowned.

CINCINNATI, June 18.—Joseph Roach,
a 14-year-old boy living at 111 Jefferson
avenue, was drowned at 11:30 o'clock
yesterday in a pond of water which the
recent rains have made in a depression
between Vine and Jefferson streets, op-
posite Boone street.

Struck With Brass Knuckles.

NEW ALBANY, June 18.—Edward
Snapp and William Davis quarreled over
some trivial matter and Davis struck
Snapp on the head with a pair of brass
knuckles, inflicting injuries from which
the wounded man will probably die.
Davis escaped.

FRONTON, O., June 18.—Monday night
E. W. Markins stabbed Asa Clarke seven
times in the breast, mortally wounding
him. The quarrel was about a woman

ment of Clarke.

thunder storm, Louis Baker was struck

An Agreement Reached

Between the British and Ger-
man Government

ON THE EAST AFRICAN QUESTION.

The Terms Not Made Known—German
Newspapers Comment on the Subject.
Various Other Foreign News.

BERLIN, June 18.—A conference has
been had between Sir Percy Anderson,
the British commissioner, and Dr.
Krauel, chief of the German colonial
department. It is said that a final set-
tlement of the East African question is
assured, but that the arranging of de-
tails will consume about two weeks.
England will probably have her desires
in Nguni granted.

The North German Gazette expresses
the opinion that the coming agreement
will not please all Germans or all En-
glishmen.

The National Gazette says that Lord
Salisbury has met Germany in a spirit
of fair dealings and that all apprehen-
sions have disappeared.

The Hamburger Nachrichten declares
the agreement as outlined, to be a fatal
error, as it conceals all to England,
while Germany has been tricked in a
most absurd manner.

Catholics Kicking.

LONDON, June 18.—In spite of the
fact that the convention signed by the
Vatican and Gen. Simmons, representing
the British government, is highly ad-
vantageous to the standing of the church
in Malta, the Catholics of that colony
are loudly protesting against its operation.
By the terms of the agreement Malta is
raised to the dignity of an archbishopric
see, yet the clergy there are joining in the
protest, preferring that the status of the
Catholics should remain as formerly
rather than submit to the enforcement
of the new system.

Mary Anderson Married.

LONDON, June 18.—Mary Anderson
became the bride of Antonio Navarro
yesterday morning. No pomp or osten-
tation marked the departure of the
actress from the ranks of single blessed-
ness. The ceremony was performed in
the little Catholic chapel at Hampstead
Heath and only the immediate relatives
of her family were present. The bride,
who was attired in a plain traveling
dress, was given away by Dr. Griffin,
her stepfather.

Fearing a Police Strike.

LONDON, June 18.—The probability of
a police strike increases and the authori-
ties at Scotland Yard, fearing the
worst, are quietly organizing a reserve
force. Hundreds of recruits have al-
ready been sworn in and are receiving a
degree of instruction in the duties of a
policeman that will enable them to
make a creditable showing in event of a
general revolt of the old men against
the government treatment of their de-
mands.

Egyptian Cotton for America.

LONDON, June 18.—A special dispatch
from Alexandria says a movement is on
foot to export Egyptian cotton to Massa-
chusetts. An agent of the promoters of
the scheme is already on his way to per-
fect the details of the plan. The move-
ment is based on the idea that the cost-
liness of the transportation in America
will enable Egypt to send cotton to the
New England centers of consumption at
a profit.

Cholera Precautions.

PARIS, June 18.—The French govern-
ment has taken sanitary measures on
the frontier of Spain to exclude cholera.
The epidemic at Puebla De Rugata is

curred at Valencia yesterday supposedly

Many Arrests in Russia.

ST. PETERSBURG, June 18.—The com-
mittee for the liberation of the Russian

nection with the manifesto have been
made in St. Petersburg, Moscow, Vidna
and Odessa.

ica in the autumn in the interest of the
Irish Nationalist movement.

ment and a committee of the inhabitants

refuge at the Italian consulate.

LABOR TROUBLES.

Nearly Ten Thousand Strike in New
York—Other Strikes.

NEW YORK, June 18.—The big strike
of clockmakers, tanners, finishers, cut-
ters, pressers and operators is on. Near-
ly 10,000 men and women went on a
strike yesterday and the clock manu-
facturing trade is practically at a stand-
still. It was predicted Monday that
unless a satisfactory settlement could be
reached between the locked-out clock
cutters and the manufacturers the
workmen in the other departments
would quit work.

Monday night they notified their em-
ployer that they would not return to
work until the difficulty with the cut-
ters had been adjusted.

The strikers have concluded to have
nothing to do with the state board of
arbitration and mediation. They allege
they are strong enough to fight their
own battles without any outside inter-
ference.

Trouble in Boston.

BOSTON, June 18.—The long threat-
ened strike of the building laborers of
Boston, Cambridge and Somerville is on
and involves about 2,500 men of the
three cities, with a prospect of that
number being increased by the brick-
layers and others of the building trades.

At a joint meeting of Labor Unions
10 and 6, it was unanimously voted to
demand twenty-five cents per hour for
nine hours work. Letters were re-
ceived from sixty-eight local unions of
laborers throughout the United States
and Canada, urging the Boston union to
go into the fight and pledging financial
support while the strike lasted. It was
reported that of thirty-five employers
who would be affected by the demand,
nearly one-third were in favor of grant-
ing what the men asked.

At a meeting of the bricklayers' union
last night it was voted not to handle
stock from non-union laborers.

Bricklayers' Strike.

CINCINNATI, June 18.—The bricklay-
ers, 370 in number, have gone out on a
strike. This is only a beginning of a
general strike to be inaugurated by all
the building trades, and which will
make idle 10,000 men. This action by
the bricklayers was taken at a mass
meeting of Unions No. 1 and 118.
Owing to the principle involved, it was
resolved to lay down their tools until
the trouble between the carpenters and
bosses are settled.

Successful Stonemasons.

NEW YORK, June 18.—The Italian
stonemasons who struck for an increase
of wages of \$1 per day have had their
request granted, and will return to
work to-morrow, the advance wages to
be given two weeks hence.

C. H. and D. Railroad Election.

CINCINNATI, June 18.—The Scully-
Taylor-Zimmerman syndicate carried
the Cincinnati, Hamilton and Dayton
election yesterday. They cast 23,000
out of 40,000 shares of stock, and only
20,001, a majority, was necessary for
their triumph. The new board is M.
D. Woodford, Eugene Zimmerman, Ed-
ward E. Cole, George W. Davis, Charles
W. Fairbanks, M. C. Martin, William
A. Proctor, Alfred Sully, H. F. Shoe-
maker. The former was chosen presi-
dent, in place of Julius Dexter, who
drops out of the directory. Eugene
Zimmerman was elected vice president.
Directors Dexter, Sidney Dillon and
Russell Sage are succeeded by Charles
W. Fairbanks, William A. Proctor and
Henry F. Shoemaker.

New Deal in the Whisky Trust.

PEORIA, Ill., June 18.—A new deal is
on foot in the affairs of the whisky
trust, which is nothing more than a
combination of the trust and the Pro-
tective Liquor Dealers' association.
About the time whisky was advanced
seven cents per gallon several big deal-
ers in Cincinnati and elsewhere were
engaged with George Wilson, of this
city, in erecting a big distillery in
Pekin, which was to be operated inde-
pendent of the trust. Work has been
suspended on this distillery, and the in-
formation has been given out that it is
not to be completed.

Lansed Out of a Thousand Dollars.

HAMBURG, Iowa, June 18.—Three de-
serters, with a lasso, secured a
\$1,000 check from J. H. Stewart, a Kan-
sas City capitalist, yesterday. Mr.
Stewart is in a precarious condition
from his rough usage. He was riding
near the city in a buggy when John F.
Charles B. and "Doc" Golden attacked,
threw the noose of a long rope about his
neck and dragged him over the dash-
board. He was helpless in their hands,
and signed the check to escape. The
trouble grew out of a litigation over the
title to lands claimed by the Golden
and by Stewart.

Missing Vessels Heard From.

FALL RIVER, Mass., June 18.—Word
has been received of the safe arrival at
Booth bay, Me., of the schooner Always
Ready and sloop Carry Away, which
sailed from Newport, June 2, with seven
persons on board, and which were sup-
posed to have been lost. They were
stormbound at Portsmouth, N. H., for
ten days.

Thirteen Miles of Fire.

MERCED, Cal., June 18.—Yesterday
afternoon a fire which started in a
house about five miles south of this
place, spread to the grain fields and
raged for five hours, when the flames
reached an open space and were brought
under control. A strip, thirteen miles
in length was burned over, entailing a
loss of about \$20,000. Insurance small.

A Farmer Shot.

AUBURN, Neb., June 18.—James
Whitman, a farmer near this city, was
shot and instantly killed while working
in a field yesterday afternoon. No one
saw the deed committed, but from testi-
mony before the coroner's jury it is be-
lieved that Charles Johnson, Whitman's
brother-in-law, is the murderer. John-
son has disappeared.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

WEDNESDAY, JUNE 18, 1890.

The Daily Journal, of Milwaukee, points out as the worst feature of the McKinley bill the fact that it increases the tariff on most everything the poor man needs, while it leaves articles used principally by the rich at the old rates.

REPUBLICAN leaders are probably wasting time in trying to formulate a National election law to govern the election of Representatives to the next Congress. The member from Oregon has already been chosen. But, perhaps, the new law is intended only to provide a way by which the g. o. p. may override the popular will in the South, and retain control of the House. Reed is a desperate man and ready to resort to desperate measures to save his party.

HON. CHANCEY M. DEPEW has done some eloquent talking lately about "the pleasure of work." This moves the Owensboro Inquirer to remark that "working for \$50,000 per annum, as does Mr. Depew, is pleasant enough. Working for starvation wages, as do a good many operatives, sewing-women, etc. in this country, is not so pleasant." If Mr. Depew had to exchange places with one of these poorly paid operatives for a week or two, he would no doubt go to talking on some other subject.

SEVENTY-NINE convicts have been released, from the penitentiary under the parole law. And most of these paroled prisoners are under sentence for murder or manslaughter. The action of the Commissioners in this matter is exciting unfavorable comment. The Frankfort Argus says prisoners are being turned out about as fast as they are convicted. "We would be glad," adds the Argus, "to have a statement of the amount of money it required to convict the seventy-nine men out under parole. We venture to say that they cost the State fully \$75,000 to secure the enforcement of law; but now another law must be enforced, and the same law breakers are turned loose upon our community."

If the St. Paul Globe was correct in a recent statement, the Republican Administration has been unsatisfactory to the farmers and working classes in South Dakota. "Promises have been held to the ear only to be broken to the hope, just as has been done here in Minnesota," says the Globe. "With fair promises of doing a great many things that were never intended to be fulfilled the Republican leaders in South Dakota have sought to keep the farmers in line in support of the Republican party, just as the Republican leaders have been deluding the Minnesota farmers. It was presuming a great deal upon the ignorance and subservience of the agricultural classes to suppose that this chicanery could always be successful, yet the Republican leaders have been guilty of the presumption."

Would Be Glad to Get out Even.

"I invested \$1,500 at Florence, Ala., a year or so ago and I regret now that I didn't keep it here in Maysville," said a prominent citizen to the BULLETIN one day this week. "I would be glad to close out down there, if I could just get a chance to quit even," he added, "but I'm beginning to think I'll not get that opportunity anyways soon."

Nine out of ten who go away from Maysville and invest money never get out even.

Democrats are expected to vote the Democratic ticket, and no other, at the August election. They must pattern after the Republicans in this respect, but in no other. No one ever hears of any of these gentlemen voting for anybody on a Democratic ticket.

The BULLETIN must be a very widely-read journal, judging from our having seen a "pilly pull" in a recent issue of that able religious paper, the New York Observer. Here it is: "A school can no more be run without using up boys than a flouring mill without wheat, or a saw mill without logs."

Speaking of General Breckinridge reminds us of having seen him when at his post, in the senate chamber at Washington, just three weeks after the first fall of the Confederacy. About that long before he went South to cast his fortune with the Confederacy. We were the only one in the senate gallery at the time, and there were only a few Senators on the floor. What a magnificent presence and bearing he had! We thought him the grandest looking man we had ever seen.

Messrs. Brookover and Atherton are in Cincinnati this week selling their tobacco, which was prized at the Enterprise.

Clifton Gates, and everybody knows Cunny, an old-timer of this place, now of Georgetown, was in town Monday night.

Barrelet will be on the decline this summer from the amount of corn and wheat the folks are gathering at the Bull Creek smash-up.

IN MEMORIAM.

Marla Barkley Power, wife of Captain J. C. Power, was born in Laurel, October 18, 1834, and died June 1, 1890. Her maiden years were spent in the vicinity of Laurel, where in early years she established that beauty of character which has marked her entire life. She was a student at Parker's Academy, and in those childhood days united with the M. E. Church, of which she was always a consistent member. On the 3rd of November, 1874, she was united in marriage to Captain J. C. Power. After this her home was in Aberdeen, O. To them was given one daughter, Bessie, who with her father survives the deceased. Here it may be said she loved the good, and all the good loved her. As a Christian, she was strong in the faith, and although often providentially hindered from attending means of worship, her daily life exemplified her Christian grace. In the beginning of 1890 she was stricken with paralysis, and deprived of all means of aiding or entertaining herself. She never murmured, she had no fear of death, and when the summons came it bore no dread, no horror of the grave, but as the time grew short, the spirit of angels hovered near, and on the beautiful June morning the break of Sabbath we beheld her in the realms of eternity. What a fit time for transition! Just as all earth was called from the stillness of night into existence for another day on earth, her life had taken flight into the home beyond, not a broken hour of the Sabbath, nor of the lovely month of June, she entered that mansion prepared by her Father to meet the loved ones who had awaited many years her coming. Her remains were interred at Carmel Cemetery, Laurel, Ohio, June 3rd. The services were conducted by Revs. Fulton, of Amelia, and Campbell, of Laurel. A multitude of relatives and friends laid her quietly to rest, and as the rising sun had pierced the cloud of her new life, the setting sun closed mother earth over her dear form.

Thou art gone to the grave but we will not deplore thee,
 Whose God was thy ransom, thy guardian and guide!
 He gave thee, he took thee and he will restore thee;
 And death has no sting for the Savior has died.

When the Silk Is on the Corn.

The geese were flying southward,
 And the clouds were hanging low,
 The naked trees were shivering
 As they chattered of the snow;
 And the frost was in our faces
 When we said good-by that morn,
 But you promised you would wed me
 When the silk was on the corn.

'Neath the laden skies we parted
 In the autumn cold and gray,
 But old winter's reign is over
 And so is the pleasant May;
 And I know you're shyly watching
 Each evening, and each morn,
 When the tender husk is bursting,
 And the silk is on the corn.

Now the tree tops flaunt their glory,
 And the clover's blooming red,
 While the ring-dove coos his story
 To his nest mate overhead,
 And the stars—they heard you promise—
 And some sunny summer morn
 I shall claim my own, my treasure,
 When the silk is on the corn.

Submarine Naval Maneuvers.

The first of a series of experiments with the much talked of Goubet torpedo boat has taken place in Cherbourg harbor. There were two seamen upon the boat, which was made to sink at the exact spot fixed upon. After some preliminary maneuvers the boat stopped before five ordinary torpedo boats placed side by side in the Commercial dock. It then passed under them and rose to the surface. The first submersion lasted just three-quarters of an hour. The second series of experiments took place in the presence of a large and enthusiastic crowd. Five buoys were floating in different parts of the Commercial dock. A Corrigun screw was then flung out from the end of a raft, when the Goubet sank, cutting the cable of the first buoy and engaging the screw.

Then, changing its direction, the Goubet made for the other buoys and successfully cut the lines of each one. After cutting the second cable the two men composing the crew sent out from the boat an empty egg containing a dispatch. Some of the cables were cut while the Goubet boat was making full speed. Before rising to the surface the crew placed a floating buoy weighing two English hundredweight upon the raft. The experiment concluded with the rising of the screw, which had been fixed in position by a bar of iron parallel to its axis. The second experiment lasted two hours.—Public Opinion.

THE Island of Guernsey last year exported to London 400,000 packages of garden produce, although it has only 10,000 cultivatable acres and supports a population of 35,000. THE weekly crop bulletin of the Kentucky State Weather Service, in co-operation with the United States Signal Service, for the week ending Saturday, June 14, is as follows: "The weather conditions of the past week were very favorable to the progress of the crops. The temperature was about normal, being somewhat below for the first half of the week, and a little above during the last. The rainfall was largely in excess of the normal, and though not equally distributed, plenty of rain was reported from all sections. Wheat harvesting has begun, but was retarded by the frequent showers. The prospect for a good yield of wheat is not assured; reports on that crop being rather discouraging. Oats are a complete failure. Corn is doing very well. Grass and pasture are in good condition. Tobacco is being rapidly transplanted, and with a continuance of the present excellent season, will soon be all set. The acreage will be considerably smaller than usual, owing to the scarcity of plants, delay in setting, for want of season, and, what seems to be more complained of, reduced prices."

THE following is taken from the Covington Commonwealth's "wheel notes" this week: "A Kenton Wheel Club delegation visited Maysville the other Sunday, and were royally entertained by the wheelmen of that place. The party visited the fair grounds in the morning, and had a delightful spin on the full mile track, which was in the very pink of condition. The Central Hotel prepared a special dinner, and in the afternoon they took a pleasant jaunt to Lewisburg, a beautiful little village nine miles distant, over an excellent pike. A very gradual grade, three and one-half miles long, commences immediately in Maysville, and afforded an excellent coast on the return trip. John Ballenger and Will Miner, on their full nickel Victor safeties, were the shining lights of the party, and received the lion's share of smiles from the pretty country maidens. 'Long live the Maysvilles,' is now the cry of the Kentons."

MINER'S MAXIMS.

It is true of Shoes as of people—that to know them you must live with them.

Why?

Because things are not what they seem. "A man may smile and smile and be a villain;" a pretty face may hide a scolding tongue; the man, polished in public, may be profane in private. In brief, you can't judge things by the outside. Same way with Shoes. Polish may hide poor material; pretty finish may mask poor work. It's only by living with a Shoe, testing it in foul and fair weather, that you can tell its true character. You know about the confidence man—slick, smart, attractive; has a taking way about him and takes people in. Well, there's a sort of Shoe that is a confidence Shoe—shapely, stylish-looking, attractive, cheap; a taking Shoe. Were you ever taken in by such a Shoe? If so you know all about it. In a short time they are shapeless; all the "pretty" rubs off; they look dreadfully. You never knew before how ugly your feet could look. You didn't buy that kind of Shoe of us. That isn't the kind of Shoe that backs up our record of

The following is the text of the silver bill as it passed the senate.

SECTION 1. That from and after the date of passage of this act, the unit of value in the United States shall be the dollar, and the same may be coined of 412½ grains of standard silver, or of twenty-five and eight-tenths grains of standard gold, and the said coins shall be equally legal tender for all debts, public or private; that thereafter any owner of silver or gold bullion may deposit the same at any mint of the United States to be formed into standard dollars or bars for his benefit and without charge; but it shall be lawful to refuse any deposit of less value than \$100, or any bullion so base as to be unsuitable for the operations of mint.

SEC. 2. That the provisions of Section 3 of an act to authorize the coinage of standard silver dollars and to restore its legal tender character, which became a law Feb. 28, 1878, is hereby made applicable to the coinage in this act, provided for.

SEC. 3. That the certificates provided for in the second section of this act and all silver and gold certificates already issued, shall be of denominations of not less than one or more than one hundred dollars, and such certificates shall be redeemable in coin of standard value. A sufficient sum to carry out the provisions of this act is hereby appropriated out of any money in the treasury not otherwise appropriated. The provision in Section 1 of act of Feb. 28, 1878, entitled, "An act to authorize the coinage of standard silver dollars and to restore its legal tender character," which requires the secretary of the treasury to purchase at the market price thereof, not less than \$2,000,000 worth of silver bullion per month, nor more than \$4,000,000 worth per month, of such bullion, is hereby repealed.

SEC. 4. That the certificates provided for in this act, and all silver and gold certificates already issued, shall be receivable for all taxes and dues to the United States of every description, and shall be a legal tender for the payment of all debts, public and private.

SEC. 5. The owners of bullion deposited for coinage shall have the opportunity to receive coin or its equivalent in the certificates provided for in this act, and such bullion shall be subsequently coined.

SEC. 6. That upon the passage of this act, the balances standing with the treasury of the United States to the respective credits of National banks for deposits made to redeem the circulating notes of such banks, and all deposits thereafter received for like purposes shall be covered into the treasury as a miscellaneous receipt, and the treasurer of the United States shall redeem from the general cash in the treasury the circulating notes of said banks which may come into his possession subject to redemption, and upon the certificates of comptroller of currency that such notes have been received by him and that they have been destroyed, and that no notes will be issued in their place reimbursement of their amount shall be made to the treasurer, under such regulations as the secretary of the treasury may prescribe, from an appropriation hereby created and to be known as "National bank notes; redemption account," but the provisions of this act shall not apply to the deposits received under Section 2 of act of June 20, 1874, requiring every National bank to keep in lawful money with the treasurer of the United States a sum equal to 5 per centum of its circulating notes, and the balance remaining of deposits so covered shall, at the close of each month, be reported on the monthly public debt statement as debt of the United States bearing no interest.

The title of the bill was so amended as to read: "An act to provide for the free coinage of gold and silver bullion and for no other purposes."

House Proceedings.

WASHINGTON, June 18.—The house agreed to the conference report on the bill for a public building at Alexandria, L., with the limit of cost fixed at \$60,000.

Senate bill was passed for the relief of the Michigan military academy.

The house then went into a committee of the whole upon the sundry civil appropriation bill, which was passed, and the house took up the Indian appropriation bill.

Mr. Perkins, of Kansas, in charge of the measure, stated that it appropriated about \$5,000,000. He spoke in favor of

a liberal expenditure for the education of the Indian youth. The bill was read by sections.

On a point of order by Cannon, of Illinois, the appropriation of \$20,000 for the expense of the removal of the Cherokee Indians to the Indian Territory was stricken out.

Pending further action the committee rose. Some unimportant measures were passed, and the house at 5:40 p. m. adjourned.

BURNED IN BOILING FAT.

The Hurting of a Tank Fatally Injures Three Men.

BALTIMORE, June 18.—Three men employed in a soap factory were fatally burned yesterday afternoon by the bursting of a large tank of boiling fat which literally drenched the unfortunate men. Their deaths are momentarily expected. The victims are: Hugh Cuffield, aged 35, John Crowe, 60, and J. H. Jacobs (colored) aged 30.

The accident occurred at Barry, Curtis & Company's factory at 604 Buren street. The three men were engaged in boiling fat in one of the immense tanks, when suddenly the tank burst and the grease descended, knocking down and covering the victims with the boiling fluid. They soon staggered to the street and were conveyed to a hospital, their scalded and withering bodies being almost unrecognizable.

It is supposed a cover of the tank was pressed down too hard, causing the hot air thus confined to expand and thereby bursting the tank.

Local Option Movement in Maine.

BANGOR, Me., June 18.—The dissatisfaction among the Democrats owing to the refusal of the Democratic state convention to adopt a license plank in its platform has culminated in a movement to call a state convention and nominate a candidate for governor. A call is being circulated inviting all who believe that the present prohibitory law is a failure and should be superseded by local option to meet in mass convention in this city July 15. It is said a number of Republicans and Democrats are in the movement to start the ball rolling for a license campaign, and it is thought the movement will be pushed and the convention held.

Died Away From Home.

NEW YORK, June 18.—A cable dispatch from Paris announces the death of V. Wumford Moore in that city yesterday. Mr. Moore was president of the National bank of New York. Mr. Moore sailed for Europe the end of April and was expected to return this month. He succeeded the late George H. Petts as president of the Park bank in 1889. Previously he was engaged in the silk importing business as a member of the firm of A. Person Harriman & Company. He was 63 years old.

Census Not Complete.

MOBILE, Ala., June 18.—There is quite a general feeling that the census of this city is not being thoroughly taken. Many families, especially among the colored people, have been overlooked. The enumeration closes Friday, and it is feared that the time will not prove sufficient for the proper completion of the work.
